DETAILED ACTION

1. Claims 1-15 are presented for examination.

This action is made final.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Parker et al., US# 2002/0073106 A1, in view of Dickenson, US# 6,738,799 B2.

As per claims 1 and 5-6, Parker et al. teaches "storing said at least one earlier version of said document in its entirety in a file . . ." (see page 6, paragraphs [0154]-[0157]) "storing said current version of said document in its entirety in said file" (see page 6, paragraphs [0154] and page 3, paragraphs [0073]-[0076]). Parker et al. does not explicitly teach "wherein said at least one earlier version and said current version are both in said file for subsequent use." Dickenson teaches "wherein said at least one earlier version and said current version are both in said file for subsequent use" (see col. 3, lines 45-67 and col. 4, lines 1-14). It would have been obvious at the time of the invention for one of ordinary skill in the art to have combined the teachings of Dickenson and Parker above, because using the steps of "wherein said at least one earlier version and said current version are both in said file for subsequent use" would have given

those skilled in the art the tools to store current and earlier versions of document in an individual file. This gives users the advantage of manipulating the versions of various documents in a more efficient manner.

As per claim 2, Parker et al. teaches "wherein said current version comprises historic information and each of said different versions . . ." (see page 2, paragraphs [0014]-[0015]) "said storing said at least earlier version includes storing historic information of said at least one earlier version . . ." (see page 6, paragraphs [0148]-[0150]).

As per claim 3, Parker et al. teaches "displaying on demand of a user of said computer system . . . at least a portion of said historic information about said different versions of said document . . ." (see page 2, paragraphs [0014]-[0015] and page 3, paragraphs [0067]-[0074]).

As per claim 4, Parker et al. teaches "method is stored in a first memory . . ." (see page 1, paragraphs [0005]-[0006] and page 2, paragraphs [000015]).

As per claim 7, this claim is rejected on grounds corresponding to the arguments given above for rejected claims 1-2 and are similarly rejected.

As per claim 8, Parker et al. teaches "wherein said at least one earlier version of a document is stored in it's entirety . . . compressed form" (see page 2, paragraph [0030] and page 6, paragraphs [0148]-[0149]).

As per claims 9-11, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-3 and are similarly rejected.

As per claims 12-15, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-4 and are similarly rejected.

Response to Arguments

4. Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US# 6,216,212 B1.

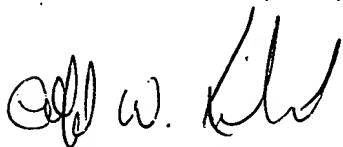

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
